**Object:**

**National Campaign : "Is the US an ally of Japan ? We ask apologizes from the US Headquarter of Marines for a "US marine outrage" "**

Here is a letter about a national campaign against US marine outrage in Iwakuni, campaign that "No More US Marine OUTRAGE" groups in Japan and I (french writer living in Japan, Ibaraki) lead all over the country against US marines at Iwakuni base.

Dear Ambassador Caroline Kennedy,

We ("No More US Marine OUTRAGE" groups in Japan) ask apologizes from the US Headquarter of Marines for a "US marine outrage".

A legendary action with the "Simon Wiesenthal Center (SWC) Statement on Marine SS Flag Outrage" had been engaged.

SWC obtained apologizes from Grl Amos now printed on SWC's website : "A Statement from the Commandant of the Marine Corps General James F. Amos"

Living in Japan we are very shocking about the web propaganda of the US Marine based in Iwakuni, Yamaguchi, this message concerns : "military Operations Security or OPSEC of the Marine Corps Air Station based in Iwakuni" (2013). This military OPSEC call civil families of US Marines in Japan to consider any japanese as an "ennemy", a "terrorist" or a "spy" or all Japaneses as "US adversaries" : "the ennemy is listening. He wants to know what you know. Keep it to yourself !"

This military order and his logo were designed during WWII in 1942 during the Shoah/Holocaust period, to fight nazis, fascits, imperialists in the world. This propaganda shows that today the jewish martyrdom, the atomization of Hiroshima and Nagazaki and the death of millions in Asia and in the world have been forgotten.

US marine propaganda tell us again:

"1. Be alert

Foreign governments and organizations can collect significant amounts of useful information by using spies. A foreign agent may use a variety of approaches to befriend someone and get sensitive information. This sensitive information can be critical to the success of a terrorist or spy, and consequently deadly to Americans.

## "2. Be careful

There may be times when your spouse cannot talk about the specifics of his or her job. It is very important to conceal and protect certain information such as flight schedules, ship movements, temporary duty locations and installation activities, just to name a few. Something as simple as a phone discussion concerning where your spouse is going on temporary duty or deploying to can be very useful to U.S. adversaries..."

Climate of conspiracy is always living in US Marine bases in Japan. US Marine has forgotten that the WWII was over. This US military propaganda, again, try to kill virtue of the global peace, try to kill memory of the Shoah, but also memory of Hiroshima and Nagasaki, memory of millions killed in the world, in Asia and in Pacific, fighters and innocents.

Japan democracy, after Fukushima nuclear drama (2011), must be saved and not destroyed. Japan is no more Hiro Hito Empire at War. American and Japanese governments declare today America and Japan are friends (you did it)... and friends of Israel.

As you see US marine propaganda is unacceptable because japaneses, people, are not "terrorists", "spies", "ennemies" or "US adversaries".

SWC obtained apologizes from the Commandant of the Marine Corps General James F Amos for "Marine SS Flag Outrage".

Thanks to democrats, thanks to you, Dear Ambassador Kennedy, and thanks to the SWC, the World Campaign Against Digital Terrorism, Hate and Nazism, we hope to obtain apologizes from the same US Headquarter of Marines for the same "US marine outrage".

Best regards

Christian Pose

Be alert : "Foreign governments and organizations can collect significant amounts of useful information by using spies. A foreign agent may use a variety of approaches to befriend someone and get sensitive information. This sensitive information can be critical to the success of a terrorist or spy, and consequently deadly to Americans..."

Be careful : "There may be times when your spouse cannot talk about the specifics of his or her job. It is very important to conceal and protect certain information such as flight schedules, ship movements, temporary duty locations and installation activities, just to name a few. Something as simple as a phone discussion concerning where your spouse is going on temporary duty or deploying to can be very useful to U.S. adversaries."

Protecting critical information : Even though this information may not be secret, it is what the Department of Defense calls "critical information."

Critical information deals with specific facts about military intentions, capabilities, operations or activities. If an adversary knew this detailed information, U.S. mission accomplishment and personnel safety could be jeopardized. It must be protected to ensure an

adversary doesn't gain a significant advantage. By being a member of the military family, you will often know some bits of critical information. Do not discuss them outside of your immediate family and especially not over the telephone.

Recently friends of US Public Citizen send us informations about a leak from the New York Times (NYT) : "U.S. Trade Representative Asked NSA for Spying Help..."

"Organizations working to influence U.S. trade policy are seeking assurances that they are not being spied on by the National Security Agency (NSA) or other national security agencies. In a letter sent today to NSA Director Keith Alexander and U.S. Trade Representative Michael Froman, more than three dozen advocacy organizations seek assurances that "their operations are not under surveillance by U.S. government agencies."

"The letter follows a Nov. 3 revelation by The New York Times that wide-reaching efforts by the NSA to collect data are driven in part by the agency's "customers" – a range of other government agencies that includes the Office of the U.S. Trade Representative (USTR), the Times report said.

We (activists in Japan) know that The TPP, is the foundation of the Obama Administration's economic policy in the Asia-Pacific Region and that U.S. stakeholders' submissions to the USTR on Japan's application to join the Trans Pacific Partnership (TPP) negotiations suggest that Japan would be better off by adopting U.S. regulatory systems and rules.

We know that "if Japan were to adapt its regulatory systems to North American business needs no doubt trade and investment flows would increase..."

In the same week (nov-11/15-2013), USTR urge Japan on the narrow path of the "americanization of Japan" : "The US Trade Representative (USTR) is urging Japan to make a decision on scrapping agricultural tariffs and other barriers to help conclude the Trans-Pacific Partnership (TPP) free trade talks..."

We think that NSA and USTR - tools of Obama's administration - and Obama's administration refused to play the public rules of the negotiations between US and Japan about TPP. US Congress write your legislation on this topic.

Recently WikiLeaks has published the "secret text" of the Trans-Pacific Partnership (TPP). Critics say the deal could rewrite U.S. laws on intellectual property rights, product safety and environmental regulations...

President Obama and U.S. Trade Representative Michael Froman reportedly wish to finalize the TPP by the end of the year and are "pushing" Congress to expedite legislation that grants the president something called "fast-track authority".

However "Some 151 House Democrats and 23 Republicans wrote letters to the administration saying they are unwilling to give the president free rein to "diplomatically legislate..." (DemocracyNow.org)

NSA and CIA are spy organizations and are not an "open government". TPP is from the very beginning under the pledge of secrecy.

We find it morally repugnant and outrageous that the U.S. negotiators be pushing Big Business's agenda in Japan and in the world - from Disney to derivatives to subprimes to banksters to nuclear power plants -, to raise price of life, to challenge wars, secret wars, and climate of perpetual conspiracy.
